The Heritage Industry Britain In A Climate Of Decline:

The Heritage Industry Robert Hewison, 2023-02-03 First published in 1987 The Heritage Industry sets out to protect the present and the future of life in Britain from their most dangerous enemy a creeping takeover by the past The author sets today's obsession with yesterday in the context of a climate of social and political decline The economic uncertainties and cultural convulsions of post war life have made the past seem a pleasanter and safer place But how true is that image of the past and whose past is it anyway Hewison questions the way institutions like the National Trust are helping to create a past that never was While the real economy crumbles a new force is taking over the Heritage Industry a movement dedicated to turning the British Isles into one vast open air museum This book will be of interest to students of history art and cultural studies

Sustaining Heritage Tony Gilmour, 2007 Sustaining Heritage chronicles a moment in the history of heritage conservation and has a particularly Australian focus Gilmour's thoughtful analysis informative case studies and conclusions provide some valuable insight and relevant messages

British Aristocracy and the Modern World Professor Miles Taylor, Christopher Ridgway, 2025-07-02 In the thirty five years since the publication of David Cannadine's Decline and Fall of the British Aristocracy 1990 the power of Britain's landed elite declined but they remain far from extinct One third of Britain's land still belongs to the aristocracy Moreover partly inspired by Cannadine's book we now know much more about the ways in which the aristocracy established their hold on modernity and how they have lasted so long Many key questions remain How much was this a distinctively British story to what extent were things different in Scotland Wales and Ireland Does decline and fall accurately describe what happened to landed elites in other countries particularly in western Europe or amongst assimilated elites such as Jews Was the soft power of the aristocracy their role in the arts philanthropy and higher education as significant as their political and economic sway How dependent on the colonies and also the USA were the British aristocracy for their wealth in the first place and how did their role overseas change their profile at home This volume brings together a wide ranging group of scholars to explore The Decline and Fall developing its themes in new ways and investigating other

aspects for the first time A Museum Studies Approach to Heritage Sheila Watson, Amy Jane Barnes, Katy Bunning, 2018-10-08 Heritage's revival as a respected academic subject has in part resulted from an increased awareness and understanding of indigenous rights and non-Western philosophies and practices and a growing respect for the intangible. Heritage has thus far focused on management, tourism and the traditionally heritage-minded disciplines such as archaeology, geography and social and cultural theory. Widening the scope of international heritage studies, A Museum Studies Approach to Heritage explores heritage through new areas of knowledge including emotion and affect, the politics of dissent, migration and intercultural and participatory dimensions of heritage. Drawing on a range of disciplines and the best from established sources, the book includes writing not typically recognised as heritage but which nevertheless makes a valuable contribution to the debate about what heritage is, what it can do and how it works and for whom. Including heritage perspectives from beyond the professional sphere, the book serves as a reminder that heritage is not just an academic concern but a deeply felt and keenly valued public and private practice. This blending of traditional topics and emerging trends, established theory and concepts from other disciplines, offers readers international views of the past and future of this growing field. A Museum Studies Approach to Heritage offers a wider, more current and more inclusive overview of issues and practices in heritage and its intersection with museums. As such, the book will be essential reading for postgraduate students of heritage and museum studies. It will also be of great interest to academics, practitioners and anyone else who is interested in how we conceptualise and use the past.

Cultural Heritage and Tourism in Africa Dallen J. Timothy, 2023-03-13 Cultural Heritage and Tourism in Africa examines the multiple and diverse manifestations of cultural heritage-based tourism in Africa from a regional social science and sustainability perspective. This book delivers a comprehensive treatise on the interdependent concepts of cultural heritage and tourism. Heritage is one of the most pervasive tourism assets worldwide and lies at the foundations of tourism in many localities, including Africa. However, despite its salience, there has not been a systematic examination of Africa's heritage resources, markets, policies, practices, successes and challenges in a tourism framework despite the continent's immense heritage value. This book reviews the different types of heritages that pervade the cultural environment of Africa and comprises its vast heritagescapes. It also examines the increasing potential for the growth of heritage tourism throughout the entire continent. The contributions in this volume delve into current thinking about space and place and their effects on heritage, mobilities, globalization, colonialism and indigeneity, conflict, identity and nation building, connections with other regions through migration and the slave trade and a greater emphasis on the ordinary heritage of Africa which has long been ignored by tourism scholars and industry representatives. The chapters herein are authored by Africa specialists, most being from Africa, offering a truly African perspective. The chapters are conceptually rigorous and empirically rich with examples from all regions of the African continent. This unparalleled interdisciplinary glimpse at cultural heritage and tourism in Africa delivers strong value and is a vital resource for all students and
