The Holy Web Church And The New Universe Story:

The Holy Web Cletus Wessels, 2000 The Holy Web offers entree to the world revealed by contemporary science and the difference the new models of our life on earth make to understanding Christianity The author shows how the church's mission is to become and to nurture a dynamic web of relationships in which all humanity can find itself part of a wondrous whole Wessels offers a profound reading of biblical categories He shows convincingly that the new universe story made popular by Thomas Berry and Brian Swimme is not only open to religious interpretation but that the biblical symbols of creation redemption sin grace life and death God Christ Spirit faith hope and love reveal the meaning of the universe to those with eyes to see and ears to hear

Jesus in the New Universe Story Cletus Wessels, 2003 At the center of the Christian tradition stands the figure of Jesus Christ a Palestinian Jew who lived two thousand years ago The background of his story is a story of creation which emerged in the ancient Jewish tradition The story of Adam and Eve their expulsion from Eden and the subsequent history of salvation is familiar to all Christians But how does this story fit in with a new cosmological story the story of an emerging universe popularly known as the New Universe Story Many Christians are disturbed by the apparent contradictions between the old story of faith and the new story of modern physics Father Wessels's challenge is to maintain the underlying reality of the biblical story of Jesus while reinterpreting that story through the lens of an emerging universe

Life as Pilgrimage David Moffett-Moore, 2013-05-29 How deep are the roots of pilgrimage in Christianity Can we find new meaning and balance in modern life by following the path of pilgrims of ancient times In true Celtic fashion Rev Dr David Moffett Moore views life as a celebration to be shared and a pilgrimage to be explored tracing his roots to the O Mordha clan of ancient Ireland and the McQueen's and MacLean's of the Scottish highlands In *Life as Pilgrimage* Dr Moffett Moore offers us the image of pilgrimage as a basis for spiritual health Using the Peregrine falcon as an archetype for pilgrimage this volume explores the roots of our ancient past to discover meaning for our modern lives Celtic pilgrimage is about the journey rather than the destination life

is a pilgrimage from the place of our birthing to the place of our rising This book will be an invaluable aid in finding your way in a new and more powerful spiritual journey The second edition is expanded and revised *Forget Not God's Benefits* (Psalm 103:2) Barbara E. Reid, 2025-04-28 Leslie Hoppe OFM has had a distinguished career in biblical studies He is known for his work on the book of Deuteronomy and the Deuteronomistic History but his interests have ranged over many areas of the Scriptures including the prophets biblical geography archaeology history and biblical perspectives on poverty In his writing and research he has broken new ground and advanced the discipline time and again For many years Hoppe served as the editor of the Catholic Biblical Quarterly and he oversaw the publication of numerous articles that have impacted the study of both the Old and New Testaments A capstone to Hoppe's illustrious career his editorship of the CBQ is reflected in the design of this volume which comprises works by scholars of both testaments The chapters here range from Genesis to the Gospels and Pauline letters Leslie Hoppe's colleagues have given him a fitting tribute a Festschrift with breadth as well as depth **Complete Idiot's Guide to Understanding Catholicism** Bob O'Gorman, Robert Thomas O'Gorman, Mary Faulkner, 2003 No Marketing Blurb *Quantum Religion* Sylvester L. Steffen, 2011-11-30 QUANTUM RELIGION Enlarging from the Inside Out These times are scary but also hope filled scary because of degraded nature but hope filled because global religion is coming to new self understanding In a word religion means relationship good news is experienced in relationships Life itself is good news because it has built in intelligence that can avoid hurtful relationships and can choose sustainable relationships instead Global relationship religion is waking up to the tragic misdirection of imperial top down control in contrast to the ordered direction of organic life growing and enlarging from within Growing from the inside out happens incrementally with experience a little bit at a time But the good news is that consciousness of experience the ground of faith is cumulative by trial and error and reveals what is sustainable and what is not Organic relationships originated minutely but have grown to the point of being self reflective in the human person Essential to growth is change as experience has shown But political forces of self interest compete to create self serving webs of relationships that intend to dominate and control The monopoly control of Christian churches has been centered in Rome under pope kings The violence of imperial overreach came to a head in medieval times and the weight of oppression so heavy at that time drove people to rebel and demand change Denominational Christianity today is made up of reform factions of original Roman Catholicism In the present time the coming apart of imperial Roman Catholicism is happening with the resignation of Emeritus Pope Benedict XVI and with the election of Pope Francis I For the first time in the history of the Roman Catholic Church it is opening up to the organic nature of life including humankind and the incremental nature of relationships growing bit by bit from within not from the top down Cosmic nature informs all relationships with the possibility and necessity of continuity and holding together from within The mentality of dominion culture underlies the waste of nature by colonial overreach and corporate capitalism The consciousness of love grounds in the universal understandings of common wellbeing and expands in the

incremental growth of complexity consciousness The affirming harmony of intentional relationships is the good news of personal social wellbeing and the condition of an uplifting and sustainable future The personal search for self identity takes on new meaning in light of understanding religion as common organic relatedness in Cosmic Earth evolution The possibility of religions coming together on grounds of universal understandings is real given the wide open potentials of communication and the continuity of diverse life inside the webs of organic evolution Beyond the benefits of the personal uplift of consciousness QUANTUM RELIGION provides cohesive insights for bringing communities to a higher sense of religion and civility and the necessary sensitivity that secures natural ecologies for future wellbeing QUANTUM RELIGION is the good news of rising consciousness Jesus Today Albert Nolan,2006 Imaging the Other Marie A. Conn,Thérèse McGuire,2009-12-11 Imaging the Other Essays on Diversity emerged from Nancy Porter s essay in Conn and McGuire s second collection of essays Not Etched in Stone Essays on Ritual Memory Soul and Society Porter explored the creation of the other as the basis for conflict among humans In the present collection each author considered the general theme in the context of her or his own background interests and research At a time when much of the world is in turmoil these essays speak of the other how we create categories the consequences of such categories and ways of re imaging those who for whatever reason are different from us Each essay in this collection stands on its own and grows out of the author s unique discipline and experience however these essays intersect with each other in many intriguing ways Creation in Contemporary Experience David Moffett-Moore,2014-04-16 Do the things we believe about God as creator make any difference in the way we act in the world Yes what we believe about God as creator impacts our theology and action in many ways In this book Dr David Moffett Moore will examine some of these implications by looking at topics as diverse as quantum physics and chaos theory hermeneutics ethics and how we tell stories of faith Can one accept the major theories of science including evolution and still be a faithful believer What do these findings of science mean for the way we do theology in the 21st century Dr Moffett Moore not only believes that we can accept the findings of science and still be faithful Christians he believes that discoveries in fields such as physics and biology can help us talk about God in a more relevant and compelling way than we ever have before When we talk about God in this new way we will also find a new call to live in a way that is faithful both to the wonders of the physical Creation and also to scripture This study is designed for individual reading and study Though it does not include questions and other traditional elements of a study guide it would still be an excellent guide for small group study on these topics Sustainability and Spirituality John E. Carroll,2012-02-16 This groundbreaking book explores the inherent interconnectedness of sustainability and spirituality acknowledging the dependency of one upon the other John E Carroll contends that true ecological sustainability in contrast to the cosmetic attempts at sustainability we see around us questions our society s fundamental values and is so countercultural that it is resisted by anyone without a spiritual belief in something deeper than efficiency technology or economics Carroll draws on the work of cultural historian

and geologist Thomas Berry whose eco spiritual thought underlies many of the sustainability efforts of communities described in this book including particular branches of Catholic religious orders and the loosely organized Sisters of the Earth The writings of Native Americans on spirituality and ecology are also highlighted These models for sustainability not only represent the tangible link between ecology and spirituality but also more importantly a vision of what could be A *Belief Beyond Theology: the Catechism of Patriarchy* William Gordon,2005-07 Exploring our belief in dividing conquering controlling and converting this catechism explains both contemporary culture and monotheism by its root patriarchy Inclusive of genderism sexism racism and classism patriarchy is over ten thousand years old and is the real religion behind our cultural beliefs and many contemporary faiths Gordon engages this topic through the lenses of Creation Spirituality and suggests ritual forms that help us break free of our traditions The Catechism of Patriarchy found within this work articulates clearly what we have come to believe about ourselves and our cultures Tapestry in Time Mary Navarre,2015-08-12 Much has been written about women religious known as nuns or sisters since Vatican II which brought about major changes to the Roman Catholic Church worldwide In this book several Dominican Sisters tell with candor what it was really like to live the religious life in Grand Rapids Michigan during those years Organized around the four basic principles of Dominican life prayer study common life and service *Tapestry in Time* weaves together written and oral histories from the Sisters themselves to describe how the introduction of then radical changes such as worship in the vernacular provided the thrill of something new and meaningful but also how the move toward inclusivity was met with challenges and opposition **How the World's Religions are Responding to Climate Change** Robin Globus Veldman,Andrew Szasz,Randolph Haluza-DeLay,2013-09-11 A growing chorus of voices has suggested that the world's religions may become critical actors as the climate crisis unfolds particularly in light of international paralysis on the issue In recent years many faiths have begun to address climate change and its consequences for human societies especially the world's poor This is the first volume to use social science to examine how religions are helping to address one of the most significant and far reaching challenges of our time While there is a growing literature in theology and ethics about climate change and religion little research has been previously published about the ways in which religious institutions groups and individuals are responding to the problem of climate change Seventeen research driven chapters are written by sociologists anthropologists geographers and other social scientists This book explores what effects religions are having what barriers they are running into or creating and what this means for the global struggle to address climate change Evolutionary Faith Diarmuid î Murch ,2002-01-01 The author of *Quantum Theology* presents a synthesis of science theology and spirituality while exploring the meaning of evolution and the spiritual underpinnings of the new sciences Original *Choosing Partnership, Sharing Ministry* Marcia Barnes Bailey,2007-06-20 Like many clergy Marcia Barnes Bailey began her work as an ordained leader with a vision of the pastor as leader extraordinaire empowered by education authority position and resources She soon found herself thinking There has to

be another way In this book Bailey invites pastors and congregations to a new understanding of ministry leadership and the church that challenges hierarchy by fully sharing responsibilities risks and rewards in mutual ministry This model took shape over 10 years as Bailey pastoral colleague Marcus Pomeroy and the congregation they served began writing their own definition of partnership creating their own map trusting their own instincts making their own mistakes For Bailey this kind of partnership began when she discovered the courage to listen to herself and to the Spirit for the inklings of another way to incarnate Jesus s example a ministry that was widely inclusive delegated power shared authority and thrived with the multiplication of gifts Partnership invites us on a journey that can transform us as leaders as human beings and as the church It is challenging and exciting and it requires hard work It is also energizing engaging and empowering Partnership unleashes the Spirit to create a new vision and reality among us moving us one step closer to living into God s reign *Burning Center, Porous Borders* Eleazar S. Fernandez, 2011-10-17 Burning Center Porous Borders articulates what the church is and is called to be about in the world a world now globalized to the point that the local is lived globally and the global is lived locally The church must respond creatively and prophetically to the challenges economic disparity war and terrorism diaspora ecological threat health crisis religious diversity and so on posed by our highly globalized world It can do so only if the church s spiritual center burns mightily Conversely it can burn mightily in the spirit of Christ only if its borders are porous and allows the fresh air spirit of change to blow in and out While there is much rhetoric about change the most common response to change is to continue doing business as usual This is particularly the case in the face of perceived global threats In spite of the hoopla and euphoria of the global village walls of division and exclusion are rising hearts are constricting and moral imagination shrinking In response to this context Burning Center Porous Borders proposes alternative ways or images of being a church burning center and porous borders wall buster and bridge builder translocal glocal mending healer radical hospitality community of the earth spirit household of life abundant dialogians of life and community of hope In Burning Center Porous Borders congregational vitality and progressive praxis kiss and embrace **Primary Scripture** , **"A" is for Abductive** Leonard I.
