The Industrialisation of Soviet Russia 2: Soviet Collective Farm, 1929-1930 R. W. Davies,1989-05-05 During the events described in The Socialist Offensive the collective farms achieved a commanding position in the Soviet countryside They were planned as giant fully socialist enterprises modelled on the state owned factories and employing wage labour By the summer of 1930 the collective farm compromise had been introduced Collective farmers were permitted to retain a personal household plot and their own animals and a free market continued side by side with state planning This system continued throughout the Stalin period important features of it remain in the Soviet Union today The emergence of the collective farm in 1929 30 discussed in detail in the present volume was thus a crucial stage in the formation of the Soviet system

The Industrialisation of Soviet Russia Volume 7: The Soviet Economy and the Approach of War, 1937-1939 R. W. Davies,Mark Harrison,Oleg Khlevniuk,Stephen G. Wheatcroft,2018-07-11 This book concludes The Industrialisation of Soviet Russia an authoritative account of the Soviet Union s industrial transformation between 1929 and 1939 The volume before this one covered the good years in economic terms of 1934 to 1936 The present volume has a darker tone beginning from the Great Terror it ends with the Hitler Stalin pact and the outbreak of World War II in Europe During that time Soviet society was repeatedly mobilised against internal and external enemies and the economy provided one of the main arenas for the struggle This was expressed in waves of repression intensive rearmament the increased regimentation of the workforce and the widespread use of forced labour

The Industrialisation of Soviet Russia Volume 4: Crisis and Progress in the Soviet Economy, 1931-1933 R. W. Davies,2016-07-27 The profound economic crisis of 1931 33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People s Commissars the author shows how during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991

The Industrialisation of Soviet Russia Volume 6: The Years of Progress R. Davies,2014-07-09 Based on extensive research in formerly secret archives this volume examines the progress of Soviet industrialisation against the

background of the rising threat of aggression from Germany Japan and Italy and the consolidation of Stalin's power

Fernandez, 2018-12-14 First published in 1997 this was the first Autonomist Marxist book on the USSR The various theories of Soviet capitalism are considered more comprehensively than in any previous work and are shown to be inadequate insofar as they fail to demonstrate satisfactorily the predominance of the category of capital A powerful new theory is developed which does precisely this introducing the concepts of bureaucratic forms of both exchange value and money This constitutes an important contribution to the overall theoretical critique of capital Attention is then turned to the class struggle For the first time the various Marxist theories of the USSR are systematically considered in relation to what they say about the working class and its struggle

Stalin Stephen Kotkin, 2018-11-20 Monumental The New York Times Book Review Pulitzer Prize finalist Stephen Kotkin has written the definitive biography of Joseph Stalin from collectivization and the Great Terror to the conflict with Hitler s Germany that is the signal event of modern world history In 1929 Joseph Stalin having already achieved dictatorial power over the vast Soviet Empire formally ordered the systematic conversion of the world s largest peasant economy into socialist modernity otherwise known as collectivization regardless of the cost What it cost and what Stalin ruthlessly enacted transformed the country and its ruler in profound and enduring ways Building and running a dictatorship with life and death power over hundreds of millions made Stalin into the uncanny figure he became Stephen

Kotkin's *Stalin: Waiting for Hitler, 1929-1941* is the story of how a political system forged an unparalleled personality and vice versa. The wholesale collectivization of some 120 million peasants necessitated levels of coercion that were extreme even for Russia and the resulting mass starvation elicited criticism inside the party even from those Communists committed to the eradication of capitalism. But Stalin did not flinch. By 1934 when the Soviet Union had stabilized and socialism had been implanted in the countryside, praise for his stunning anti-capitalist success came from all quarters. Stalin, however, never forgave and never forgot with shocking consequences as he strove to consolidate the state with a brand new elite of young strivers like himself. Stalin's obsessions drove him to execute nearly a million people, including the military leadership, diplomatic and intelligence officials, and innumerable leading lights in culture. While Stalin revived a great power, building a formidable industrialized military, the Soviet Union was effectively alone and surrounded by perceived enemies. The quest for security would bring Soviet Communism to a shocking and improbable pact with Nazi Germany. But that bargain would not unfold as envisioned. The lives of Stalin and Hitler and the fates of their respective dictatorships drew ever closer to collision as the world hung in the balance. *Stalin: Waiting for Hitler, 1929-1941* is a history of the world during the build up to its most fateful hour from the vantage point of Stalin's seat of power. It is a landmark achievement in the annals of historical scholarship and in the art of biography.

Decision-making in the Stalinist Command Economy, 1932-37 E. A. Rees, 1997-04-12. A detailed examination of economic policy making in the USSR during the period of the Second Five Year Plan, 1933-1937. The work examines the process by which the plan was formulated and implemented through a series of detailed case studies based on archival material, examining the role of the Politburo, the Soviet government, Gosplan, and the main economic commissariats. It examines the relationship between the conflicts within the economic commissariats and the unleashing of the Great Purges, 1936-38. The work aims towards a new conceptualisation of the Stalinist state.

The Industrialisation of Soviet Russia 3: The Soviet Economy in Turmoil, 1929-1930 R. W. Davies, 1989-05-05. In 1929-30, the spinal year of the first five year plan, a vast investment programme began the transformation of the Soviet Union from a peasant country into a great industrial power. This book, the third part of *The Industrialisation of Soviet Russia*, re-examines the breakdown of the mixed economy. In those days of heroism and enthusiasm, hunger and repression, crucial Soviet economic and political institutions were established and are only now being effectively challenged by Gorbachev's revolution. While complementing the previous two volumes of this author's work, the book is designed to be read independently. It sheds new light on a dramatic moment in Soviet history and in the formation of the Soviet system.

Stalinism Graeme Gill, 2016-01-07. Drawing on research based on access to the recently opened Soviet archives, this new edition provides a valuable thematic account of the nature of Stalinism. The author surveys the arguments about the origins of the Stalinist phenomenon and discusses the way in which the different faces of Stalinism—economic, social, cultural, and political—changed over time. Gill concludes that the dramatic fall of the USSR was connected to the nature of Stalinism.
