The Place of the Humanities in Medicine Eric J. Cassell,1984 The contribution of the humanities to medicine is considered with attention to the classic view existing programs in medical school and obstacles to continued or increased participation by the humanities A shift is occurring in medicine toward a primary concern for sick persons instead of disease alone Specific values of teaching literature historical referents philosophy the tools of teaching communication skills and reasoning are identified Literature offers the opportunity to see the interplay of illness and persons including the role of physicians in the lives of others and the perception of physicians by laypersons In addition to providing a historical context for viewing medicine and science history provides a methodology and understanding of time and process Teaching doctors how to think about both the body and about persons i.e the objective and subjective data and values in formulating patient care goals allows them to integrate knowledge of medical science the body and the everyday life and function of individual sick persons It is argued that medicine has demands to make of the humanities that may exceed what humanists are willing to or able to offer In the process of meeting medicine's changing needs humanities view of their own nature and function may also change SW *Congressional Record* United States.
