The Oxford History of Life Writing: Volume 2. Early Modern Alan Stewart, 2018-05-04 The Oxford History of Life Writing Volume 2 Early Modern explores life writing in England between 1500 and 1700 and argues that this was a period which saw remarkable innovations in biography autobiography and diary keeping that laid the foundations for our modern life writing. The challenges wrought by the upheavals and the sixteenth century English Reformation and seventeenth century Civil Wars moulded British and early American life writing in unique and lasting ways. While classical and medieval models continued to exercise considerable influence new forms began to challenge them. The English Reformation banished the saints' lives that dominated the writings of medieval Catholicism only to replace them with new lives of Protestant martyrs. Novel forms of self accounting came into existence from the daily moral self accounting dictated by strands of Calvinism to the daily financial self accounting modelled on the new double entry book keeping. This volume shows how the most ostensibly private journals were circulated to build godly communities how women found new modes of recording and understanding their disrupted lives how men started to compartmentalize their lives for public and private consumption. The volume doesn't intend to present a strict chronological progression from the medieval to the modern nor to suggest the triumphant rise of the fact based historical biography. Instead it portrays early modern England as a site of multiple sometimes conflicting possibilities for life writing all of which have something to teach us about how the period understood both the concept of a life and what it

mean to write a life **The Oxford History of Life-writing** Karen Anne Winstead, Alan Stewart, 2018 The Oxford History of Life Writing Volume 1 The Middle Ages explores the richness and variety of life writing in the Middle Ages ranging from Anglo Latin lives of missionaries prelates and princes to high medieval lives of scholars and visionaries to late medieval lives of authors and laypeople [Towards Poetic Narratology: A New Visit to Narrative Studies and Poetic Studies](#) Luo Jun, 2021-09-15 For a very long time I have been preoccupied with the exploration of the academic blind spots that have cropped up in the organic combination of poetic studies and narrative studies that is inclined to give a lot of perceptive and cognitive inspiration to the systematic and strategic construction of the theoretical frameworks and theoretical systems of poetic narratology to provide more perceptive and cognitive convenience for the vast majority of readers and scholars to give a much more profound and perspicacious interpretation and illustration of the ideological and epistemological values implied in the diverse and distinctive narration of most poetic narrative texts in an unnoticeable fashion and in an untraceable fashion **The Bloomsbury Handbook of 21st-Century Feminist Theory** Robin Truth Goodman, 2019-02-07 The Bloomsbury Handbook of 21st Century Feminist Theory was a PROSE Award finalist The Bloomsbury Handbook of 21st Century Feminist Theory is the most comprehensive available survey of the state of the art of contemporary feminist thought With chapters written by world leading scholars from a range of disciplines the book explores the latest thinking on key topics in current feminist discourse including Feminist subjectivity from identity difference and intersectionality to affect sex and the body Feminist texts writing reading genre and critique Feminism and the world from power trauma and value to technology migration and community Including insights from literary and cultural studies philosophy political science and sociology The Bloomsbury Handbook of 21st Century Feminist Theory is an essential overview of current feminist thinking and future directions for scholarship debate and activism **Challenging Orthodoxies: The Social and Cultural Worlds of Early Modern Women** Melinda S. Zook, 2016-04-15 Offering a broad and eclectic approach to the experience and activities of early modern women Challenging Orthodoxies presents new research from a group of leading voices in their respective fields Each essay confronts some received wisdom truth or orthodoxy in social and cultural scientific and intellectual and political and legal traditions to demonstrate how women from a range of social classes could challenge the conventional thinking of their time as well as the ways in which they have been traditionally portrayed by scholars Subjects include women s relationship to guns and gunpowder the law and legal discourse religion public finances and the new science in early modern Europe as well as women and indentured servitude in the New World A testament to the pioneering work of Hilda L Smith this collection makes a valuable contribution to scholarship in women s studies political science history religion and literature *Fashioning England and the English* Rahel Orgis, Matthias Heim, 2018-07-27 This book explores how literary texts envision England and respond to discourses and conceptions of Englishness and the English nation especially in relation to gender and language The essays discuss texts from the fifteenth to the twentieth century and bear

witness to changing views of England and the English highlighting the importance of religion economy landscape the spectre of the other and language in this discourse The volume pays attention to women writers reflection on the nation and the roles female figures play in male writers visions of nationhood It brings into conversation less well known voices like those of Osborn Bokenham Thomas Deloney Eleanor Davies and Jacquetta Hawkes with canonical authors William Shakespeare William Wordsworth Jane Austen and Virginia Woolf and opens a space for exploring the interplay of dominant and variant voices in the fashioning of England
