## **The Humanities And The Dream Of America:**

**The Humanities and the Dream of America** Geoffrey Galt Harpham, 2011-02-15 In this bracing and original book Geoffrey Galt Harpham argues that today's humanities are an invention of the American academy in the years following World War II when they were first conceived as an expression of American culture and an instrument of American national interests The humanities portray a dream of America in two senses they represent an aspiration of Americans since the first days of the Republic for a state so secure and prosperous that people could enjoy and appreciate culture for its own sake and they embody in academic terms an idealized conception of the American national character Although they are struggling to retain their status in America the concept of the humanities has spread to other parts of the world and remains one of America's most distinctive and valuable contributions to higher education The Humanities and the Dream of America explores a number of linked problems that have emerged in recent years the role at once inspiring and disturbing played by philology in the formation of the humanities the reasons for the humanities perpetual state of crisis the shaping role of philanthropy in the humanities and the new possibilities for literary study offered by the subject of pleasure Framed by essays that draw on Harpham's pedagogical experiences abroad and as a lecturer at the U S Air Force Academy as well as his vantage as director of the National Humanities Center this book provides an essential perspective on the history ideology and future of this important topic

**Behold, America** Sarah Churchwell, 2018-10-09 A Smithsonian Magazine Best History Book of 2018 The unknown history of two ideas crucial to the struggle over what America stands for In Behold America Sarah Churchwell offers a surprising account of twentieth century Americans fierce battle for the nation's soul It follows the stories of two phrases the American dream and America First that once embodied opposing visions for America Starting as a Republican motto before becoming a hugely influential isolationist slogan during World War I America First was always closely linked with authoritarianism and white supremacy The American dream meanwhile initially represented a broad vision of democratic and economic equality Churchwell traces these notions through the 1920s boom the Depression and the rise of fascism at home and abroad laying bare the persistent appeal of demagoguery in America and showing us how it was resisted At a time when many ask what America's future holds Behold America is a revelatory unvarnished portrait of where we have been

**Building The Dream** Gwendolyn Wright, 2012-05-09 For Gwendolyn Wright the houses of America are the diaries of the American people They create a fascinating chronicle of the way we have lived and a reflection of every political economic or social issue we have been concerned with Why did plantation owners build uniform cabins for their slaves Why were all the walls in nineteenth century tenements painted white Why did the parlor suddenly disappear from middle class houses at the turn of the century How did the federal highway system change the way millions of Americans raised their families Building the Dream introduces the parade of people policies and ideologies that have shaped the course of our daily lives by shaping the rooms we have grown up in In the row houses of colonial Philadelphia the luxury apartments of New

York City the prefab houses of Levittown and the public housing towers of Chicago Wright discovers revealing clues to our past and a new way of looking at such contemporary issues as integration sustainable energy the needs of the elderly and how we define family

**Permanent Crisis** Paul Reitter, Chad Wellmon, 2023-04-05 Any reader of the Chronicle of Higher Education can tell you that the humanities are in crisis Seen as irrelevant for modern careers and hopelessly devoid of funding humanistic disciplines seem at the mercy of modernizing forces driving the university towards academic pursuits that pull in grant money and direct students to lucrative careers But as Paul Reitter and Chad Wellmon show this crisis isn't new in fact it's as old as the humanities themselves Today's humanities scholars experience and react to basic pressures in ways that are strikingly similar to the response of their nineteenth century German counterparts In German universities of the 1800s as in those in the United States today humanities scholars felt threatened by the very processes that allowed the modern humanities to flourish such as institutional rationalization and the commodification of knowledge But Reitter and Wellmon also emphasize the constructive side of crisis discourse They claim that the self understanding of the modern humanities didn't merely take shape in response to a perceived crisis it also made crisis a core part of its project The humanities came into their own by framing themselves as a unique resource for resolving crises of meaning and value that threatened other cultural or social goods With this critical historical perspective Permanent Crisis can take humanists beyond the usual scolding exhorting and handwringing into clearer more effective thinking about the fate of the humanities Furthering ideas from Max Weber and Friedrich Nietzsche to Andrew Delbanco and William Deresiewicz Reitter and Wellmon dig into the notion of the humanities as a way to find meaning and coherence in the world

**Chasing the American Dream** Mark R. Rank, Thomas A. Hirschl, Kirk A. Foster, 2014-05 The United States has been epitomized as a land of opportunity where hard work and skill can bring personal success and economic well being The American Dream has captured the imagination of people from all walks of life and to many it represents the heart and soul of the country But there is another darker side to the bargain that America strikes with its people it is the price we pay for our individual pursuit of the American Dream That price can be found in the economic hardship present in the lives of millions of Americans In Chasing the American Dream leading social scientists Mark Robert Rank Thomas A Hirschl and Kirk A Foster provide a new and innovative look into a curious dynamic the tension between the promise of economic opportunities and rewards and the amount of turmoil that Americans encounter in their quest for those rewards The authors explore questions such as What percentage of Americans achieve affluence and how much income mobility do we actually have Are most Americans able to own a home and at what age How is it that nearly 80 percent of us will experience significant economic insecurity at some point between ages 25 and 60 How can access to the American Dream be increased Combining personal interviews with dozens of Americans and a longitudinal study covering 40 years of income data the authors tell the story of the American Dream and reveal a number of surprises The risk of economic vulnerability has increased substantially over the past four

decades and the American Dream is becoming harder to reach and harder to keep Yet for most Americans the Dream lies not in wealth but in economic security pursuing one's passions and looking toward the future Chasing the American Dream provides us with a new understanding into the dynamics that shape our fortunes and a deeper insight into the importance of the American Dream for the future of the country **Mexican Workers and American Dreams** Camille

Guerin-Gonzales,1994 Earlier in this century over one million Mexican immigrants moved to the United States attracted by the prospect of work in California's fields The Mexican farmworkers were tolerated by Americans as long as there was enough work to go around During the Great Depression though white Americans demanded that Mexican workers and their families return to Mexico In the 1930s the federal government and county relief agencies forced the repatriation of half a million Mexicans and some Mexican Americans as well Camille Guerin Gonzales tells the story of their migration their years here and of the repatriation program one of the largest mass removal operations ever sanctioned by the U S government She exposes the powers arrayed against Mexicans as well as the patterns of Mexican resistance and she maps out constructions of national and ethnic identity across the contested terrain of the American Dream Race Characters Swati

Rana,2020-10-06 A vexed figure inhabits U S literature and culture the visibly racialized immigrant who disavows minority identity and embraces the American dream Such figures are potent and controversial for they promise to expiate racial violence and perpetuate an exceptionalist ideal of America Swati Rana grapples with these figures building on studies of literary character and racial form Rana offers a new way to view characterization through racialization that creates a fuller social reading of race Situated in a nascent period of ethnic identification from 1900 to 1960 this book focuses on immigrant writers who do not fit neatly into a resistance based model of ethnic literature Writings by Paule Marshall Ameen Rihani Dalip Singh Saund Jos Garcia Villa and Jos Antonio Villarreal symbolize different aspects of the American dream from individualism to imperialism assimilation to upward mobility The dynamics of characterization are also those of contestation Rana argues Analyzing the interrelation of persona and personhood Race Characters presents an original method of comparison revealing how the protagonist of the American dream is socially constrained and structurally driven *Our Kids*

Robert D. Putnam,2016-03-29 The bestselling author of Bowling Alone offers an examination of the American Dream in crisis how and why opportunities for upward mobility are diminishing jeopardizing the prospects of an ever larger segment of Americans The Abandonment of the West Michael Kimmage,2020-04-21 This definitive portrait of American diplomacy

reveals how the concept of the West drove twentieth century foreign policy how it fell from favor and why it is worth saving Throughout the twentieth century many Americans saw themselves as part of Western civilization and Western ideals of liberty and self government guided American diplomacy But today other ideas fill this role on one side a technocratic liberal international order and on the other the illiberal nationalism of America First In The Abandonment of the West historian Michael Kimmage shows how the West became the dominant idea in US foreign policy in the first half of the twentieth

century and how that consensus has unraveled We must revive the West he argues to counter authoritarian challenges from Russia and China This is an urgent portrait of modern America s complicated origins its emergence as a superpower and the crossroads at which it now stands

**Requiem for the American Dream** Noam Chomsky,2017-03-28 A NEW YORK TIMES BESTSELLER In his first major book on the subject of income inequality Noam Chomsky skewers the fundamental tenets of neoliberalism and casts a clear cold patient eye on the economic facts of life What are the ten principles of concentration of wealth and power at work in America today They re simple enough reduce democracy shape ideology redesign the economy shift the burden onto the poor and middle classes attack the solidarity of the people let special interests run the regulators engineer election results use fear and the power of the state to keep the rabble in line manufacture consent marginalize the population In *Requiem for the American Dream* Chomsky devotes a chapter to each of these ten principles and adds readings from some of the core texts that have influenced his thinking to bolster his argument To create *Requiem for the American Dream* Chomsky and his editors the filmmakers Peter Hutchison Kelly Nyks and Jared P Scott spent countless hours together over the course of five years from 2011 to 2016 After the release of the film version Chomsky and the editors returned to the many hours of tape and transcript and created a document that included three times as much text as was used in the film The book that has resulted is nonetheless arguably the most succinct and tightly woven of Chomsky s long career a beautiful vessel including old fashioned ligatures in the typeface in which to carry Chomsky s bold and uncompromising vision his perspective on the economic reality and its impact on our political and moral well being as a nation During the Great Depression which I m old enough to remember it was bad much worse subjectively than today But there was a sense that we ll get out of this somehow an expectation that things were going to get better from *Requiem for the American Dream*

*A Dream Deferred* Shelby Steele,2000

**Overground Railroad** Candacy A. Taylor,2020-01-07 This historical exploration of the Green Book offers a fascinating and sweeping story of black travel within Jim Crow America across four decades The New York Times Book Review Published from 1936 to 1966 the Green Book was hailed as the black travel guide to America At that time it was very dangerous and difficult for African Americans to travel because they couldn t eat sleep or buy gas at most white owned businesses The Green Book listed hotels restaurants gas stations and other businesses that were safe for black travelers It was a resourceful and innovative solution to a horrific problem It took courage to be listed in the Green Book and *Overground Railroad* celebrates the stories of those who put their names in the book and stood up against segregation Author Candacy A Taylor shows the history of the Green Book how we arrived at our present historical moment and how far we still have to go when it comes to race relations in America A New York Times Notable Book of 2020

*Before We Remember We Dream* Bryan Thao Worra,2020-04-11 A book of poetry by Lao Amercian writer Bryan Thao Worra and artist Nor Sanavongsay examining the Southeast Asian diaspora in America and beyond Cover by Sisavnh Phoutavong Houghton

**The Epic of America** James Truslow Adams,2012-05-01 Originally published in 1931 by Little Brown and Company

*Better Than Well: American Medicine Meets the American Dream* Carl Elliott, 2004-06-17 An examination of enhancement technologies in America considers the pervasiveness of self improvement drugs and procedures in spite of society's general unease about their use

*Other Russias* Victoria Lomasko, 2017-06-15 From a renowned graphic artist and activist an incredible portrait of life in Russia today Victoria Lomasko's gritty street level view of the great Russian people masterfully intertwines quiet desperation with open defiance Her drawings have an on the spot immediacy that I envy She is one of the brave ones Joe Sacco author of *Palestine* What does it mean to live in Russia today What is it like to grow up in a forgotten city to be a migrant worker or to grow old and seek solace in the Orthodox church For the past eight years graphic artist and activist Victoria Lomasko has been travelling around Russia and talking to people as she draws their stories She spent time in dying villages where schoolteachers outnumber students she stayed with sex workers in the city of Nizhny Novgorod she went to juvenile prisons and spoke to kids who have no contact with the outside world and she attended every major political rally in Moscow The result is an extraordinary portrait of Russia in the Putin years a country full of people who have been left behind many of whom are determined to fight for their rights and for progress against impossible odds Empathetic honest funny and often devastating Lomasko's portraits show us a side of Russia that is hardly ever seen **The Last Professors** Frank Donoghue, 2008 Taking a clear eyed look at American higher education over the last twenty years Donoghue outlines a web of forces social political and institutional dismantling the professoriate Today fewer than 30 percent of college and university teachers are tenured or on tenure tracks and signs point to a future where professors will disappear from publisher description [The Work of Art in the World](#) Doris Sommer, 2014-01-08 Celebrating art and interpretation that take on social challenges Doris Sommer steers the humanities back to engagement with the world The reformist projects that focus her attention develop momentum and meaning as they circulate through society to inspire faith in the possible Among the cases that she covers are top down initiatives of political leaders such as those launched by Antanas Mockus former mayor of Bogot Colombia and also bottom up movements like the Theatre of the Oppressed created by the Brazilian director writer and educator Augusto Boal Alleging that we are all cultural agents Sommer also takes herself to task and creates *Pre Texts* an international arts literacy project that translates high literary theory through popular creative practices *The Work of Art in the World* is informed by many writers and theorists Foremost among them is the eighteenth century German poet and philosopher Friedrich Schiller who remains an eloquent defender of art making and humanistic interpretation in the construction of political freedom Schiller's thinking runs throughout Sommer's modern day call for citizens to collaborate in the endless co creation of a more just and more beautiful world [American Dream, American Nightmare](#) Kathryn Hume, 2001-10-16 Examines nearly 100 novels of contemporary American fiction and discusses the overall sense of lost morality and faith found in their different critiques of America *City On A Hill* James Traub, 1994-10-20 Traub relates the daily struggles of men and women trying to gain an education against the odds at the City College of New York telling the

story of the college's difficult present against the backdrop of its 150 year history. Students battle the cultural and economic forces that perpetuate inner city poverty while the college that produced eight Nobel Laureates now tries to prepare survivors of the public school system for college level work.
