## **The Illusion Of Truth The Real Jesus Behind The Grand Myth:**

**The Illusion of "Truth"** Thomas Nehrer, 2014-02-28 The Illusion of Truth is a multifaceted look at Jesus of Nazareth his message and religions created not from his insights into reality but on fantasy and lore concocted about him Tom Nehrer builds on scholarly research through personal level of consciousness exposing myths to find the real Yeshua who trod dusty roadways of first century Judea Understanding Jesus Kingdom of Heaven within requires extensive perspective This book explores Historical social political and traditional settings for Jesus appearance The mindset of ancients how superstitious peasants imagined divine manipulation Modern man s mindset how causality is projected not only onto gods but onto real world forces luck chance and fate all illusory processes How life really works metaphysical connection of Self to Reality an inner outer flow How beliefs create illusions masking Reality s flow with shared notions of Truth which isn t Many caveats to accepting Gospel accounts as reliable reports of any substance The real life of Jesus how the man grew from first century Jewish thinking to fully visionary status aware of the Self as driving force in life The Parables whose rich stories reveal Jesus awareness of the functional Oneness of Consciousness Reality A deeply critical look at Christianity its early growth smothering of alternate explanations and claims to represent true traditions back through the apostles to Jesus That claim is shown as bogus when Gospel writers only show apostles as unable to grasp Jesus Kingdom illustrations The Illusion of Truth reveals not only how life works and how Jesus was fully aware of its meaning based flow but how Christianity grew from ancient notions and layered myth about Jesus rather than insights from him The Illusion of Truth Thomas Nehrer, 2014-02

Nehrer uniquely aware of Reality s integrated flow elucidates Jesus penetrating often mystifying insights exposing widespread religious scholarly and skeptical fallacy **A Secret History of Christianity** Mark Vernon, 2019-08-30 Christianity is in crisis in the West The Inkling friend of C S Lewis and J R R Tolkien Owen Barfield analysed why He developed an account of our spiritual predicament that is radical and illuminating Barfield realized that the human experience of life shifts fundamentally over periods of cultural time Our perception of nature the cosmos and the divine changes dramatically across history Mark Vernon uses this startling insight to tell the inner story of 3000 years of Christianity beginning from the earliest Biblical times Drawing too on the latest scholarship and spiritual questions of our day he presents a gripping account of how Christianity constellated a new perception of what it is to be human For 1500 years this sense of things informed many lives though it fell into crisis with the Reformation scientific revolution and Enlightenment But the story does not stop there Barfield realised that there is meaning in the disenchantment and alienation experienced by many people today It is part of a process that is remaking our sense of participation in the life of nature the cosmos and the divine It s a new stage in the evolution of human consciousness Quaker Roots and Branches John Lampen, 2018-07-27 Quaker Roots and Branches explores what Quakers call their testimonies the interaction of inspiration faith and action to bring change in the world It looks at Quaker concerns around the sustainability of the planet peace and

war punishment and music and the arts in the past and today It stresses the continuity of their witness over three hundred and sixty five years as well as their openness to change and development      **Friday's Child** Brian Mountford,2018-02-23 Brian Mountford has chosen thirty five poems which explore the human experience of suffering and redemption accompanied by his own thoughtful and witty commentary The collection contains secular and sacred pieces in equal measure and came into being as part of a programme to bring a sense of seriousness in a non prescriptive open ended way to the Easter holiday crowds in the University Church Oxford where the poems were read on Good Friday with dignity and panache by senior school children The selection has not been augmented in any kind of attempt to provide a fully representative anthology but kept exactly as it evolved in response to this specific need      *Heart of Oneness* Jennifer Kavanagh,2017-12-08 A wise and welcome reminder of the mutuality and interconnectedness at the heart of the universe Richard Rohr Our screens and newsfeeds are full of violent images our world is full of poverty inequality and injustice We find it hard to live together in our families communities or in the world at large At the same time we are surrounded by the beauty of the natural world and daily life is full of acts of compassion kindness friendship and love How do we reconcile these differences What does the universe with its countless examples of mutuality have to teach us Science religion and our own experience teaches us that the whole of creation is a web of interconnectedness This book explores the oneness at the heart of existence and what this means for how we act in the world      Past Perfect Stephen Mitchell,2018-09-28 We seem to be obsessed with perfection It s everywhere permeating our conversations our language our advertising our films and our religion It s not only widespread across our culture it has roots deep in the beginning of our civilization For the sake of our well being and our faith we need to be liberated from this pre occupation Past Perfect unravels some of the confusion surrounding our use of the word in many different contexts and shapes an understanding of God that is free of this notion      **Psychedelic Christianity** Jack Call,2018-07-27 Psychedelic Christianity discusses what we should hope and believe about the ultimate goal of living and uses psychedelic experience and Christianity as its guiding stars The book reconciles three seemingly inconsistent claims that we have already attained the ultimate goal that there is more than one ultimate goal that there is and always will be another ultimate goal coming Psychedelic Christianity also argues that Jesus taught that worldly politics will never lead to the kingdom of heaven      **Quaker Quicks - What Do Quakers Believe?** Geoffrey Durham,2019-03-29 So what do you believe It s the question Quakers are always asked first and the one they find hardest to answer because they don t have an official list of beliefs And Quakerism is a religion of doing not thinking They base their lives on equality and truth they work for peace justice and reconciliation they live adventurously And underpinning their unique way of life is a spiritual practice they have sometimes been wary of talking about Until now In What Do Quakers Believe Geoffrey Durham answers the crucial question clearly straightforwardly and without jargon In the process he introduces a unique religious group whose impact and influence in the world is far greater than their numbers suggest What Do Quakers Believe is a friendly direct and

accessible toe in the water book for readers who have often wondered who these Quakers are but have never quite found out

**Sing Out for Justice** Ray Vincent,2017-12-08 The Old Testament prophets were not just predictors of things that would happen long after their time Nor were they purveyors of religious platitudes They were people with an urgent message for their own generation and a passion to declare it whatever the risk They were singers poets demonstrators and protesters radical critics of their own society and dreamers of a world that could be different **Quaker Quicks - Money and Soul**

Pamela Haines,2019-07-26 If money troubles your soul try this down to earth Quaker perspective on economies large and small The economy as we usually encounter it has nothing to do with values or faith After all the invisible hand caters to no religious belief It is all a matter of science we are assured economists have mastered the mathematical formulas for growth and prosperity Our role as individuals is simply to work consume and save each adding our bit to the sum totals of economic activity that will keep the system humming along the experts will take care of everything else This breezy values free story however is unlikely to be a comfortable fit for anyone who takes seriously the challenge of bringing our faith into the world Knotty issues around economics crop up at every turn especially if we are willing to ask the big questions What is the economy for How much is enough What needs to be equal How is well being best measured Who should decide In Money and Soul this search for answers through a Quaker lens gives a taste of the power of applying faith values to our economic story

**The Authority of Service and Love** Roger Payne,2017-11-24 The challenge to all forms of authority has become particularly acute since the middle of the twentieth century and has had a profound impact on all aspects of society It has affected relationships in the home in local communities and in the world at large It has tested parents as they seek to nurture their children It has undermined the ability of teachers to manage their classes It has forced the police to change their tactics It has required hospitals to engage with patients It has caused local and national politicians to amend legislation Many of these changes have had positive outcomes but many others are negatively charged and some remain unresolved Some issues of authority are not recognised or are simply ignored Others are carelessly or insensitively handled Some groups are in turmoil amongst competing voices of authority Other groups suffer from arbitrary and imposed authoritarian solutions This whirlwind of change has been rightly called a crisis of authority Religious communities have not been immune from all this and in some ways the crisis of authority has been more acute for those with a religious disposition Although the crisis applies to all religious groups the purpose of this book is to consider the problems facing the Christian community in particular and to offer some thoughts on possible solutions Questioning the Incarnation Peter Shepherd,2018-03-30 The classic

Christological formulations of the 4th and 5th Centuries are basically meaningless today Questioning the Incarnation offers a new approach to Christology based on modern biblical scientific and philosophical studies Whilst using different concepts and language and courting controversy and disagreement the overall thrust of the study is to take Jesus humanity seriously whilst seeking to interpret what may be meant by his divinity in a way that remains fully Trinitarian and which takes

seriously the intentions of the early Church Fathers      **The Christian Middle Way** Robert M. Ellis, 2018-07-27 The Middle Way is the practical principle of avoiding both positive and negative absolutes so as to develop provisional beliefs accessible to experience Although inspired initially by the Buddha's Middle Way in Middle Way Philosophy Robert M Ellis has developed it as a critical universalism a way of separating the helpful from the unhelpful elements of any tradition In this book the Middle Way is applied to the Christian tradition in order to argue for a meaningful and positive interpretation of it without the absolute beliefs that many assume to be essential to Christianity Faith as an embodied provisional confidence is distinguished from dogmatic belief Recent developments in embodied meaning brain lateralization from neuroscience Jungian archetypes and the Jungian model of psychological integration are drawn on to support an account of how Christian faith is not only possible without belief in God or Christ but indeed puts us in a better position to access inspiration moral purpose responsibility and the basis of peace      *The Truth about Jesus* Mangasar Mugurditch Mangasarian, 1909

*Shattering the Christ Myth* James Patrick Holding, 2008-06 How To Get Rid of Jesus Prove He Didn't Exist A popular question posed by Christians today asks WWJD which stands for What Would Jesus Do For more and more Skeptics of Christianity however the answer to this question is JDNE which stands for Jesus did not exist In this volume edited by prominent Internet apologist James Patrick Holding a team of Christian authors provide a series of essays giving detailed answers to those who argue for the Christ myth Though rejected by mainstream scholars this theory continues to grow in popularity among popular writers and Internet antagonists The need for Christians to be ready to give an answer to it will only become more urgent Here's a clear and compelling rebuttal to fallacious claims that keep resurfacing in books and on the Internet It's well researched expertly presented and ultimately convincing Lee Strobel author *The Case for the Real Jesus*

**Essence of Reality** Thomas Nehrer, 2011-03-16 The Essence of Reality is the most perceptive exacting look at the flow of Reality ever Rarely has a human glimpsed beyond the confines of the self-aware mind to see the interactive flow of mind value into Reality Thomas Nehrer here goes beyond a glimpse to specify that flow depicting Consciousness explicitly The Essence of Reality illustrates that all of one's life health success authority abundance reflect one's inner nature leading the reader to see exactly how that works It gives explicit tools for delving into limiting mindsets to accomplish real change

*Cold-Case Christianity* J. Warner Wallace, 2013-01-01 Written by an L A County homicide detective and former atheist Cold Case Christianity examines the claims of the New Testament using the skills and strategies of a hard to convince criminal investigator Christianity could be defined as a cold case it makes a claim about an event from the distant past for which there is little forensic evidence In Cold Case Christianity J Warner Wallace uses his nationally recognized skills as a homicide detective to look at the evidence and eyewitnesses behind Christian beliefs Including gripping stories from his career and the visual techniques he developed in the courtroom Wallace uses illustration to examine the powerful evidence that validates the claims of Christianity A unique apologetic that speaks to readers' intense interest in detective stories Cold

Case Christianity inspires readers to have confidence in Christ as it prepares them to articulate the case for Christianity

Truth Left Behind Steve Wohlberg, 2001 The popular Left Behind series depicting the rapture of the Church and the rise of Antichrist has captured the imaginations of millions This gripping but fictional story dramatizes a widely accepted view of Revelation s mysterious prophecies and how earth s last days might be fulfilled But could these bestsellers about missing people also be missing important Bible truths Truth Left Behind by Steve Wohlberg has a clear purpose to take a closer look at what the Bible really says about the Rapture the Tribulation The Antichrist and his deadly mark Revelation 14 9 14 What s true about The Rapture What s false According to the author when it comes to understanding God s truth we cannot afford to be left behind

Jesus and the Lost Goddess Timothy Freke, Peter Gandy, 2011-08-10 Why Were the Teachings of the Original Christians Brutally Suppressed by the Roman Church Because they portray Jesus and Mary Magdalene as mythic figures based on the Pagan Godman and Goddess Because they show that the gospel story is a spiritual allegory encapsulating a profound philosophy that leads to mythical enlightenment Because they have the power to turn the world inside out and transform life into an exploration of consciousness Drawing on modern scholarship the authors of the international bestseller The Jesus Mysteries decode the secret teachings of the original Christians for the first time in almost two millennia and theorize about who the original Christians really were and what they actually taught In addition the book explores the many myths of Jesus and the Goddess and unlocks the lost secret teachings of Christian mysticism which promise happiness and immortality to those who attain the state of Gnosis or enlightenment This daring and controversial book recovers the ancient wisdom of the original Christians and demonstrates its relevance to us today
